

I. Supported implementations

The implementations are inside the folder `products`.

1. JSON, the versatile default format

By default, a file `palettes.json` is provided to allow unsupported coding languages to also integrate @prism palettes. Here are the first line of this file.

```
{  
  "Accent": [  
    [0.498039, 0.788235, 0.498039],  
    [0.690196, 0.705881, 0.757298],  
    [0.882352, 0.721568, 0.661437],  
    [0.99477, 0.835294, 0.550326],  
    [0.913289, 0.935947, 0.610021],  
    [0.306317, 0.487581, 0.680174],  
    [0.700653, 0.146404, 0.562091],  
    [0.855772, 0.162962, 0.316775],  
    [0.671459, 0.366448, 0.159041],  
    [0.4, 0.4, 0.4]  
  ],  
  ...  
}
```
