

1 JSON, the versatile default format

By default, a file `palettes.json` is provided to allow unsupported coding languages to easily integrate palettes. Here are the first line of this file.

```
{  
  "Accent": [  
    [0.498039, 0.788235, 0.498039],  
    [0.621568, 0.735293, 0.664705],  
    [0.745098, 0.682352, 0.831372],  
    [0.868627, 0.717646, 0.678431],  
    [0.992156, 0.752941, 0.52549],  
    [0.996078, 0.87647, 0.562744],  
    [1.0, 1.0, 0.6],  
    [0.609803, 0.711764, 0.645098],  
    [0.219607, 0.423529, 0.690196],  
    [0.580391, 0.215686, 0.594117],  
    [0.941176, 0.007842, 0.498039],  
    [0.845097, 0.182352, 0.294117],  
    [0.749019, 0.356862, 0.090196],  
    [0.574509, 0.378431, 0.245097],  
    [0.4, 0.4, 0.4]  
  ...  
}
```
