I. How to choose a palette?

Two methods are available to find the ideal palette.

1. The documents `showcase-en-std.pdf` (light theme) and `showcase-en-dark.pdf` (dark theme) present use cases for each palette.

2. Appendix 1 page **??** presents all palettes organized by theme with a visualization of their color spectrum.

> **ⓘ Note.**
>
> *Appendix 2 page **??** groups visually similar palettes together.*
