

I. How to choose a palette?

Here are a few tips to help you select your color palette.

1. An [online demo of @prism](#)¹ lets you intuitively browse palettes with the following features.
 - **Random discovery:** a 'random' button to explore new palettes.
 - **Category filtering:** quickly narrow down choices by category.
 - **Palette export:** download specific palette files directly.
2. Appendix ?? (page ??) details all palettes by category, showing discrete definitions (semantic/qualitative) and continuous spectra.
