

I. Where do the color palettes come from?

1. Resources used

In addition to its 10 creations (representing 3%), @prism incorporates 340 palettes from the following projects.

- [Asymptote](#) is used, but currently offers nothing beyond [Matplotlib](#) (despite different implementations).
- [CarbonPlan](#) provides palettes designed for data visualization..
- [CARTOColors](#) palettes are extracted from [Palettable](#) project.
- [CMasher](#) provides palettes designed for data visualization..
- [cmocean](#) palettes are extracted from [Palettable](#) project.
- [Colorbrewer](#) provides professional color palettes for mapping and data visualization.
- [Light and Bartlein](#) palettes are extracted from [Palettable](#) project.
- [Matplotlib](#) compiles color maps from diverse projects.
- [MyCarta](#) palettes are extracted from [Palettable](#) project.
- [Plotly](#) palettes are extracted from [Palettable](#) project.
- [Scientific Coulour Maps](#) provides palettes designed for colorblind accessibility.
- [Tableau](#) palettes are extracted from [Palettable](#) project.
- [Wes Anderson Palettes](#) palettes are extracted from [Palettable](#) project.

Note.

The following versions were used to build the current @prism release.

<i>Asymptote: 2026-04-26</i>	<i>Colorbrewer: 2021-05-03</i>
<i>CarbonPlan: 2024-01-10</i>	<i>Matplotlib: 2026-05-02</i>
<i>CARTOColors: 2024-09-25</i>	<i>Palettable: 2025-08-23</i>
<i>CMasher: 2026-04-14</i>	<i>Scientific Coulour Maps: 2023-10-05</i>
